Motion (*Chee*) Passed: To accept the Resolution to affirm support and respect for West Counseling faculty

Whereas, full- and part-time Counseling faculty at West have faced numerous attacks on multiple fronts as West administration continues to disrespect and violate their contractual rights;

Whereas, tenure and seniority are two of the most sacred and fundamental pillars of the faculty contract;

Whereas, the AFT considers the most important principle of the union is to defend faculty jobs;

Whereas, West administration in effect abolished the Counseling seniority list by hiring replacement part-time faculty, in violation of the CBA and District policy, as part-time Limited hires (which are supposed to be temporary full-time faculty replacements);

Whereas, eight West Counseling faculty on seniority filed a grievance in December 2021 and over two years later the District is still unwilling to resolve the grievances and arbitration in good faith and the District seems to prefer spending legal fees rather than right their mistakes;

Whereas, two full-time probationary faculty filed grievances as a result of West administration's disrespect for West Counseling faculty and our tenure peer evaluation process with undue interference, including changing evaluation outcomes;

Whereas, West administration violated the CBA and circumvented the bargaining rights of AFT 1521 as the exclusive representative by creating homemade evaluation forms in place of contractually-negotiated evaluation forms to solicit hearsay comments and office gossip from anonymous contributors who possess no knowledge of the faculty's performance;

Whereas, West administration made false claims that AFT 1521 did not respond to tenure evaluation committee members' concerns despite documented e-mails to the contrary;

Whereas, West administration's anti-union animus and continued attacks on their Counseling faculty pose a larger threat to all 9 campuses in the LACCD;

Be it Resolved, that the AFT 1521 Faculty Union affirms its support of the West Counseling faculty and urges West administration to show respect to their faculty by following the CBA, CA Ed Code, and LACCD policies;

Be it further Resolved, that AFT 1521 directs the union executive leadership to support West Counseling faculty (full- and part-time) to restore their positions and make them financially whole;

Be it further Resolved, that AFT 1521 will engage management in vigorous discussions to protect seniority lists across the District from willful elimination; and

Be it further Resolved, that AFT 1521 will engage management in vigorous discussions to protect and ensure adherence to the negotiated evaluation processes outlined in the CBA for faculty across the District.

Motion (*Walzer*) Passed: supporting the ban on oil drilling in residential neighborhoods

Oil Drilling in Los Angeles and California Communities, and supporting SB1137

Whereas we understand that [climate-related crises disproportionately impact communities of color and low-income communities](#) due to the fossil fuel industry peppering neighborhoods with oil wells, inequities in systems of power, and lack of access to means and resources for prevention and relief; and

Whereas working class and low-income students of color have historically and

disproportionately been subjected to negative health impacts as a result of the poor air quality conditions in their communities brought on by fossil fuel pollutants, oil drilling and oil well gas leaks; and

Whereas frontline communities in LA and throughout California formed grassroots organizations and coalitions like STAND-LA to advocate for buffer zones between oil wells and their communities; and

Whereas Senate Bill (SB)1137 was passed in 2022 at the statewide level, banning oil companies from creating new wells within 3200 feet of communities. Los Angeles City Council then passed a similar law banning current and new oil wells from continuing drilling in Los Angeles City and Los Angeles County; and

Whereas the oil industry responded with a shady petition campaign, [telling communities that they were signing petitions to lower gas prices when the petition was really for a referendum to overturn SB1137](#), gaining enough signatures for the law to be put on the 2024 ballot for a vote; and

Whereas we understand that this referendum campaign is an attempt to rob frontline communities of color of their democratic efforts; and

Whereas oil wells and drilling operations throughout the state that are under the financing portfolio of both CalPERS and CalSTRS, using worker dollars to pollute their own neighborhoods;

Therefore, be it resolved, that the Los Angeles Faculty Guild, AFT 1521, supports upholding SB 1137 -- which prohibits oil and gas drilling within 3.200 feet of residential neighborhoods, schools, and daycare centers. We support a yes vote on the Nov 2024 ballot initiative "The California Oil and Gas Wells Regulations Referendum."

Be it further resolved, that the Los Angeles Faculty Guild, AFT 1521, encourage all locals to show solidarity with working class communities of color where our students hail from, by passing their own resolution to support the keeping of SB1137 as law in California; and

Be it further resolved, that the Los Angeles Faculty Guild, AFT 1521, encourage the Los Angeles County Federation of Labor to show solidarity with working class students and their communities by demonstrating support for keeping SB1137 as law in California; and

Be it finally resolved, that the Los Angeles Faculty Guild, AFT 1521, sign onto formal letters or petitions of support from community led organizations and coalitions like STAND-LA in order to further momentum in the effort to rally a grassroots campaign for communities to vote in favor of SB1137 that would allow for setbacks between their neighborhoods and oil drilling sites.

Motion (*Torres*) Passed: to Approve the COPE resolution statement related to sexual harassment within LACCD. Refer to the document below that reads, "COPE resolution related to sexual harassment within LACCD, Final"

i. Amendment: Switch out COPE to AFT 1521

Sexual harassment is pervasive. According to the National Sexual Violence Resource Center, "Nationwide, 81% of women and 43% of men reported experiencing some form of sexual harassment and/or assault in their lifetime." Given these statistics, it's no surprise that this violation has occurred in the Los Angeles Community College District. However, it is very disappointing when little is being done by the Chancellor, District Administration, or the Board of Trustees to stop it or to insure that those committing the harassment are held accountable. Specifically, the Board of Trustees, instead of accepting their loss in a current lawsuit brought forth by a member of our LACCD faculty, have chosen to appeal the decision and continue to deny this faculty member justice.

Sexual harassment is never acceptable.

~~COPE~~ **AFT 1521** would like to officially acknowledge that we are deeply troubled by the Board's recent responses and continuing inaction regarding sexual harassment in our District. We also want the Board of Trustees to know that their actions do not go unnoticed. Faculty, staff, and students expect the Chancellor, District Administration, and the Board of Trustees to do everything they can to prevent sexual harassment on our campuses and to take prompt and decisive steps when violations are reported.
